

## WOLF TOURISM SURVEY

Please forward this survey to rural business owners you know in Idaho, Wyoming, and Montana which have been affected positively or negatively by wolves. Results will be posted on my wolf news website and I will send the results to elected officials, wildlife departments, and wildlife commissioners in the rocky mountain and northwestern states. All business and personal names will be kept confidential unless a person asks to be quoted. Thanks for your help with this survey.

Motels, Restaurants, Convenience Stores, Realtors, Service Businesses, Tour Operators, Outfitters, Ranchers, etc.

Dear Business Owner,

I am conducting a survey for <http://graywolfnews.com> regarding the benefits or detriments that wolf recovery has had on local privately owned businesses and small town economies. Your answers to this survey will help establish the effect wolves have had on local tourism and local economies. If you have any specific comments to add please make them short and to the point so that I may be able to include the comment. I will forward a copy of the survey results to anyone who emails the survey, send to [info@graywolfnews.com](mailto:info@graywolfnews.com).

1. What type of business do you own?
2. What town and state are you in or near?
3. Do you believe wolves have been a benefit, a detriment, or had no effect on your business?
4. What percentage of increase or decrease in business would you attribute to the wolf recovery?
5. Do you believe wolves are a benefit, a detriment, or had no effect on your local economy?
6. What percentage of increase or decrease in your local economy would you attribute to wolves?
7. If you could go back to 1995 would you recommend or discourage wolf recovery?
8. Please add a specific comment of how you would describe the benefits or detriments of wolves on tourism and local economies?

Thanks for participating in the survey, I look forward to providing you with a detail of the survey results.

Best Regards,  
Dale Denney
